

Managing your money online

Free
computer
courses

Finances can be tricky, but we can help you learn how to do budgeting, banking and shopping online in a safe and easy way.

We all hear scare stories about identity theft, nasty websites, viruses and internet scams. But the truth is that the internet is no more dangerous than the real world.

Every day we all take simple precautions to keep ourselves safe - looking both ways before we cross a road, covering our pin number at the cash machine, and keeping our valuables out of sight. The same principles apply online - you just need to know what you're doing, what to look out for, and what pitfalls to avoid.

Taking time to visit your bank isn't always easy, and when you do, it can still sometimes mean a long wait to speak to the right person. Banking online, also known as internet banking, can be much more convenient. It might seem scary to be dealing with your money online at first, but millions of people use online banking every day in a safe and secure way.

Please don't let internet safety worries scare you off!

Believe it or not, learning to stay safe online isn't difficult. If you're worried about giving out your personal details, spending money online or keeping your kids or grandkids safe, we're here to help you - every step of the way.

Join us weekly at **Carlisle Library** for our **FREE** courses on using a computer and the internet.

Learn at your own pace, with staff on hand to help you when you need it.

One to one taster sessions are also available.

Tuesdays 10 am - 12 noon
Wednesdays 10 am - 12 noon
Thursdays 5 pm - 7 pm

Call **Carlisle Library** on **(01228) 227324** for more information or to book a place.
